HERITAGE WHEN THE SEVEN JACUZZI BROTHERS IMMIGRATED TO THE UNITED STATES, THEY HAD NO IDEA THAT A PUMP THEY DESIGNED FOR ORCHARDS WOULD REVOLUTIONIZE HYDROTHERAPY IN THE HOME. WHILE THE FAMILY'S CRITICAL NEED TO CHANGE THE LIFE OF A CHILD TRIGGERED THIS THERAPEUTIC INVENTION, A DESIRE FOR WELLNESS PIONEERED AN INDUSTRY.

THE NAME THAT LAUNCHED AN INDUSTRY CONTINUES TO REDEFINE IT

By 1920 all of the Jacuzzi Brothers had immigrated to the United States, determined to change the world with their inventions. Starting by laying roots in the aviation industry, their invention of a hydraulic aircraft pump led them to the creation of a deep well agricultural pump.

By the 1940's, 15-month-old Ken Jacuzzi was diagnosed with debilitating rheumatoid arthritis. When traveling for hydrotherapy treatments at a distant hospital began to wear on his child, Candido redesigned the agricultural pump into what's known as the J-300 hydromassage pump, turning any soaking bathtub into a relaxing and rejuvenating hydro-therapeutic spa, and allowing Ken to return to the family home.

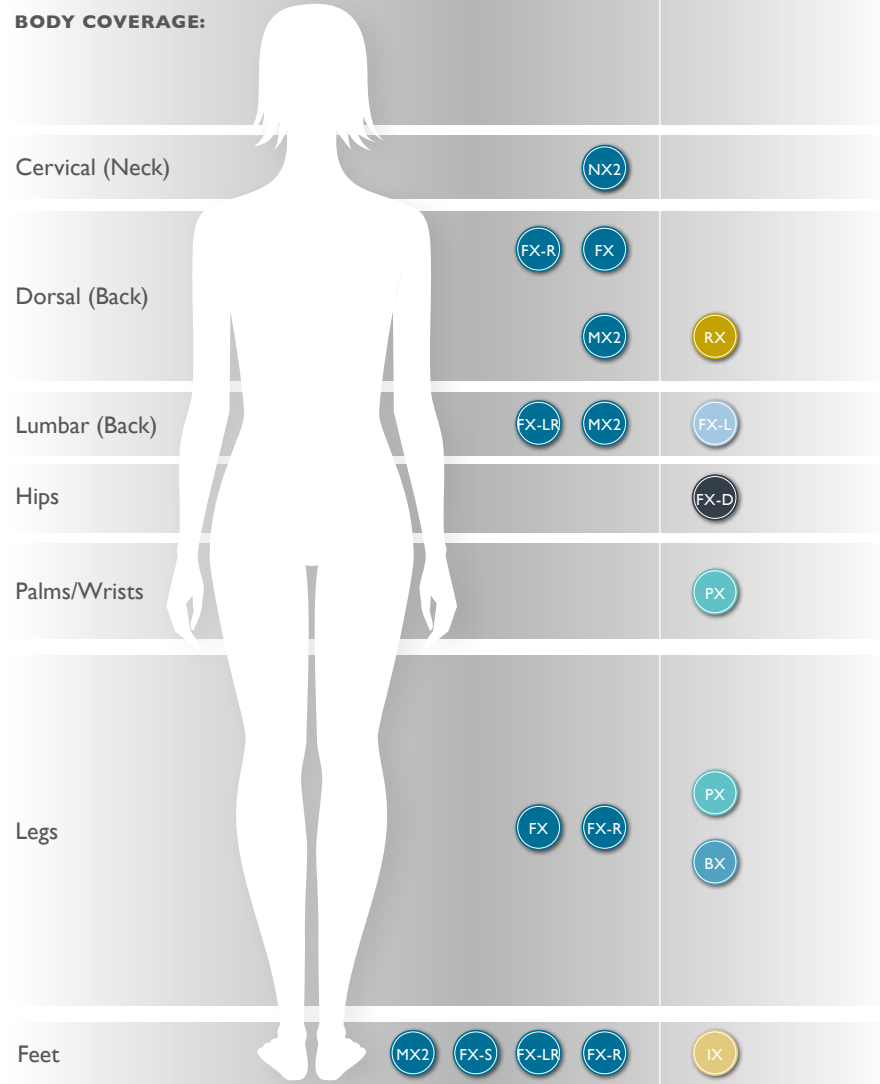

Overwhelming demand for the hydromassage pump led to the founding of Jacuzzi in 1956 and the whirlpool bathing category was born. Since then, the company continued to lead and grow the new industry, from integrating pumps and jets into their flagship bathtub to launching their first bath that worked both indoors and outdoors. The first to highly-engineer jets, the Jacuzzi® Brand has become synonymous with jetted hydrotherapy, well-being and performance.

With a foundation in health and wellness and a dedication to research and innovation, Jacuzzi continues to develop products that improve the lives of both high-performance athletes and everyday people while leading the industry.

REGISTRATION AND NOTIFICATION

Please register your new spa within 7 days of delivery. You can register your new spa by signing up to our Jacuzzi® Club at www.jacuzzi.co.uk.

Upon proof of purchase, a designated service representative will correct the defect subject to the terms and conditions contained in this Warranty.

Upon becoming aware of a fault with your spa you should take all reasonable steps to ensure that no further damage is caused to it, for example by ceasing to use the stereo system or other component system (as appropriate), or the spa itself, until such a time as we or our authorised dealer are able to repair the fault.

There will be no charge for parts or labour to repair a defect with the spa. You are required to provide clear and uninterrupted access to the spa to enable the defect to be repaired. If we are unable to access the spa when attending a repair we may refuse to carry out the repair until such a time as access is provided; in these circumstances we may charge you for our reasonable travel and any other expenses incurred in attending at your property.

In the event that the spa is removed to a repair facility for repair and reinstalled, the cost of removal and reinstallation will be at our expense or that of our authorised dealer.

We reserve the right, at our sole discretion, to either repair or replace any spa (or part of it) that is the subject of this Warranty. In the event that we choose to provide a replacement spa, it will be at least of an equal value and specification to that which is replaced. In such an event, reasonable costs for removal of the original spa, shipping costs from the factory for the replacement spa and delivery and installation of the replacement will be our responsibility.

Any replacement part or spa will carry the balance of the original spa's warranty. Spa covers are not included.

The product guarantee is only valid for products used in the United Kingdom and installed in a domestic environment. This Warranty is void where defects occur from:

- damage arising in transit by a carrier that is not provided by us or our authorised dealer
- the commercial use of the products.

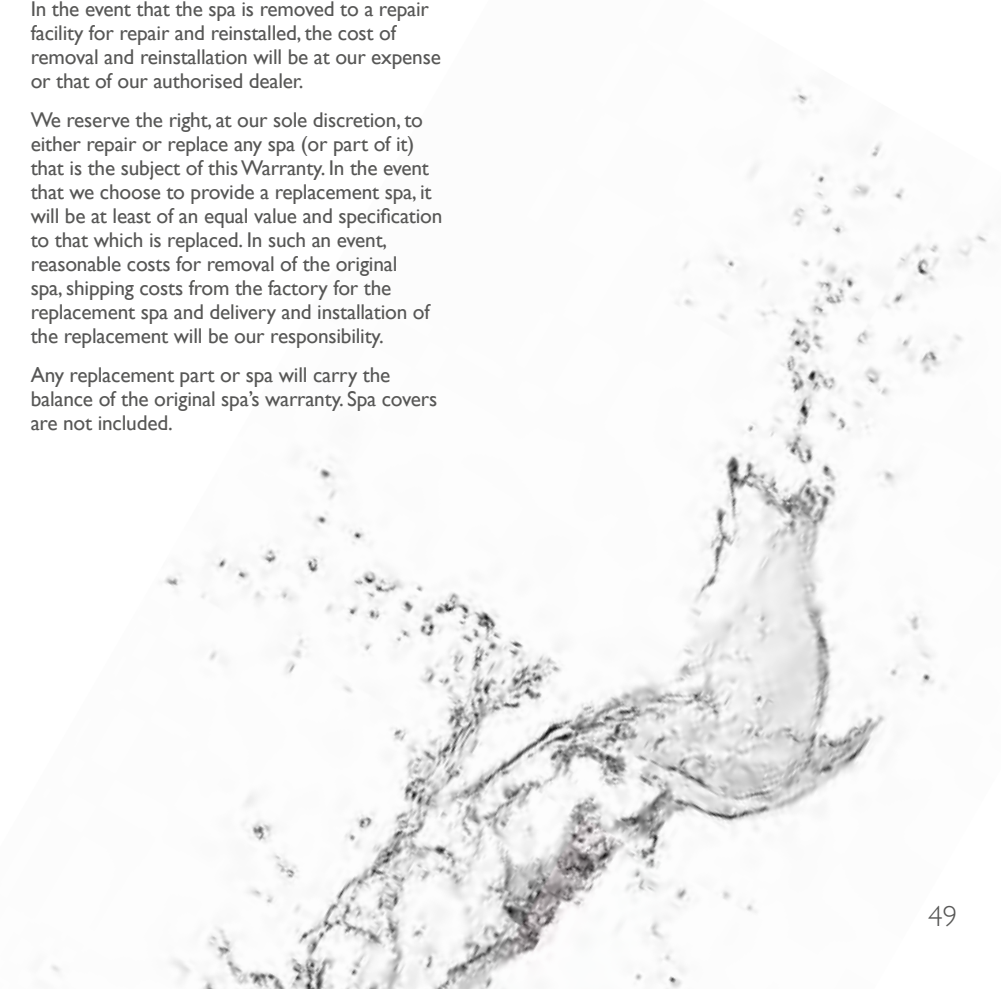

Some parts of the spa are manufactured from natural materials (or man made materials replicating natural materials) which may change in the ordinary course of their lifespan; this may affect the look and feel of the spa. As such these are not regarded as defects, and include (without limitation):

- Products that have yellowed or changed colour in sunlight;
- Products that have failed as a result of the ingress of moisture that are typical as a consequence of use.

This Warranty does not provide cover for insulating covers, or any item attached to or installed on the spa by you.

You accept liability for repair work performed by anyone other than by us or our representative.

THIS WARRANTY DOES NOT AFFECT YOUR STATUTORY RIGHTS

CHOOSING YOUR MODEL

1. SELECT SIZE AND MASSAGE OPTIONS

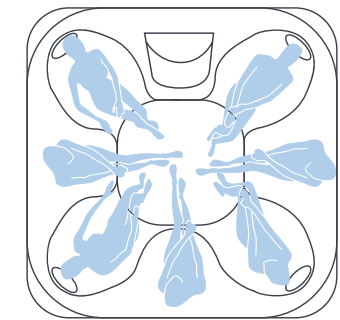

A common misconception about hot tub size is that you're limited to models with less seating options when garden space is limited. The good news is that a hot tub with more massage combinations requires only a slightly larger footprint; sometimes a matter of only a few centimetres.

2. CHOOSE LOUNGE VS. OPEN SEATING

A lounge seat offers a full-body massage option and a more secluded spa experience.

An open seating model offers more massage options and makes communicating with others in the hot tub easier.

3. FIND THE COLLECTION THAT'S RIGHT FOR YOU
